** ELECTRIC RANGE AND CHARGING TIMES

Electric range figures given are the maximum official test values from the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), obtained after fully charging the battery, and are provided for comparison purposes. Figures given should only be compared to other cars tested to the same technical procedures. Figure variation can occur according to selected grade and transmission, accessories fitted post-registration, driving style and speed, weather conditions, vehicle and battery age, and vehicle load, and may not reflect your real-life driving results. Charging times are for comparison purposes and depends on variable factors, including model, battery option, age, type, condition and temperature of the charging unit and battery, starting charge, its power supply, and the environmental conditions when charging.
