

HILUX

# EIGHT GENERATIONS OF TOUGH

SINCE ITS LOCAL INTRODUCTION IN 1969, THE HILUX HAS SERVED SOUTH AFRICANS THROUGH THE GOOD TIMES AND THE BAD. INNOVATIONS SUCH AS FOUR-WHEEL DRIVE, INTRODUCED IN 1981 AS THE FIRST FOR A VEHICLE OF ITS SORT IN THE COUNTRY, HAVE MADE THE HILUX SOUTH AFRICA'S FAVOURITE BAKKIE – FOR DOING, PLAYING AND EVERYTHING IN BETWEEN.

Five decades and eight generations of Hilux later, the world's a different place. Never before have we undergone such rapidly radical change as now, making all of us yearn for dependability, tenacity and safety.

And never before could you count as much on a

bakkie as with the new Hilux Xtra Cab, designed for multiple uses, and used for multiple purposes. Nothing is offlimits with this spacious, adventurous and bold legend of a vehicle.

Featuring fearless and enhanced styling on a new flagship Legend with a bold and proud trapezoid grille and more power from its 2.8ℓ diesel engine, this is the bakkie to command your own destiny and conquer a crisis. To seek adventure. To get the job done. To do what it takes. And to not just survive the world, but to thrive in it.

# DISCOVER THE POWER WITHIN

LEGENDARY TOUGHNESS REQUIRES LEGENDARY POWER. HELPING YOU WELCOME ANY CHALLENGE IS A RANGE OF DIESEL ENGINES, FITTED WITH 6-SPEED MANUAL OR 6-SPEED AUTOMATIC TRANSMISSIONS.

The four-cylinder, 2.8ℓ turbodiesel engine has been upgraded to deliver 150 kW of power @ 3 000-3 400 r/min and 500 Nm of torque @ 1 600-2 800 r/min on the 6-speed automatic transmission models, and power of 150 kW @ 3 400 r/min and torque of 420 Nm @ 1 400-3 400 r/min on 6-speed manual transmission equipped models.

With peak torque nearly available from idle speeds, this engine delivers powerful acceleration and low fuel consumption, while maximising driveability for increased driving pleasure or trailer-towing ease.

A super-economical four-cylinder, 2.4ℓ turbodiesel engine producing 110 kW @ 3 400 r/min and maximum torque of 400 Nm @ 1 600-2 800 r/min is also available.

Ready to take on the biggest loads and the roughest roads, the Xtra Cab is fitted with double wishbone front suspension and ultra-strong load-ready leaf springs at the rear. The suspension has been enhanced to absorb vibrations and reduce shock transmitted into the cabin, and add an improved sense of comfort, feel and directness.

The incredible driving capabilities include:

## HILL-ASSIST CONTROL

Prevents the vehicle from rolling back when pulling off from a sharp incline.

## TRAILER SWAY CONTROL

With an unbraked towing capacity of up to 3.5 tonnes\*, Trailer Sway Control keeps you and your trailer safe by minimising lateral movement from cross winds and road surface changes.

## **DOWNHILL-ASSIST CONTROL\***

Prevents the wheels from locking while manoeuvring extreme descents. This system simultaneously manages engine braking and brake pressure, maintaining a stall-free and stable downhill vehicle speed.

## LIMITED SLIP DIFFERENTIAL

Aims to ensure maximum available traction during wheel spin situations by transmitting power to the tyre with the most grip. This assists the driver in traversing mud and other soft surfaces, and provides better control during extreme cornering.

## RAIDER

Available in 2.4ℓ and 2.8ℓ. the Hilux's Raider exterior specifications have been extensively upgraded to make your workweek more productive and your weekends more enjoyable. Now, with the addition of a 2.8ℓ Raider 48V model, you can take in impressive performance improvements while maintaining operated and retractable, the aggressive exterior styling that you know and love.

Adding to its steadfast, nononsense appearance is its signature trapezoidal black grille, with visual backup from

its colour-coded lower bumper guard and bumper corners. The latter also houses LEDpowered front fog lamps, with colour-coded outside door handles on all 2.4ℓ models and black accents on the vehicle's side mirrors. The side mirrors on 2.8 models are black, powerwith integrated turn signal indicators.

The 2.4ℓ models feature a colour-coded front bumper, black rear bumper and halogen headlamps.

The 2.8ℓ models are equipped with a colour-coded front bumper, black rear bumper and full bi-LED headlamps that integrate daytime running lights and LED turn signal indicators. The tail lights are also LED-powered.

Complementing the extra traction afforded by the fitted-as-standard Limited Slip Differential (LSD), the Raider's footwear has also been upgraded to include an assertively styled new 17" alloy wheel design with a machinefinished deep spoke structure.

## LEGEND

Similarly, the Legend-exclusive parts serve to emphasise the Hilux's tough and adventurous purpose. These include a black engine hood moulding, which extends from the engine hood around the trapezoidal grille, down the front bumper and framing the skid plate.

Naturally, the Legend's fog lamps and headlamps are fully LED powered, the latter of which tint on the machine cuts.

also integrate LED Daytime Running Lights (DRL).

At the side, black protective mouldings set the Legend apart from the standard bakkie, and continues with the door handles, power retractable side mirrors and front and rear over fenders. The Legend's newly designed 18" alloy wheels have a black Pearl has been added.

The tough and sophisticated design follows through to the rear, with the trapezoid theme continuing onto the exterior rear door handle sporting the Hilux Logo.

To enhance the Legend's toughness, an extension to the colour range in Oxide Bronze and Platinum White

MODEL SHOWN: 2.4 GD-6 RAISED BODY RAIDER 6MT

# LOOK TOUGH BE TOUGH

THE HILUX'S NEW ALL-BLACK INTERIOR ECHOES ITS EXTERIOR FORTITUDE THROUGH A COMBINATION OF PREMIUM AND PURPOSEFUL FINISHES.

The seats are cladded in either black fabric\* or leather\* and the electrochromatic\*rear view mirror has an auto dimming function to reduce glare during night-time driving.

Through the use of steering wheelmounted controls, Bluetooth connectivity via mobile phones, the vehicle's audio system and information display can be safely operated without the driver moving their hands from the steering wheel or taking their eyes off the road.

All models are fitted with a multimedia audio display system, which comprises Bluetooth and USB compatibility, linked to up to 6\* high powered speakers.

The multimedia system is also linkable to smart devices through the Apple CarPlay and Android Auto functionality. When connected via USB, both of these interfaces display the screen of the smartphone on the infotainment screen and links the phone's audio output to the vehicle's speakers.

## CONNECT TO THE MYTOYOTA APP

All Toyota vehicles can now be connected to the MyToyota App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features. (See last page for more info on MyToyota App).

# TOUGH ENOUGH TO CARE

EQUIPPED WITH A RANGE OF BRAKE CONTROL SYSTEMS TO HELP PREVENT ACCIDENTS AND EMERGENCIES AND MAXIMUM SAFETY TECHNOLOGY TO REDUCE INJURY IN THE EVENT OF A COLLISION, THE NEW HILUX INCLUDES A NUMBER OF RELIABLE SAFETY FEATURES:

## AIRBAGS

Front and rear passengers are protected by a total of seven airbags, distributed as driver, front passenger, side, curtain and driver-knee.

### **BRAKE-ASSIST (BA)**

The pre-emptive identification of an emergency braking situation through which additional braking force is automatically applied to reduce the braking distance.

## ANTI-LOCK BRAKING SYSTEM (ABS)

ABS (Anti-lock Braking System) monitors the speed of each wheel to detect locking. When it detects sudden braking, it will release braking pressure for a moment and then provide optimum braking pressure to each wheel, enhancing steering control during sudden stops. As a result, it will also help improve the ability of stopping the vehicle.

## **ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)**

Takes the principle of ABS even further, by individually distributing braking force to each corner to allow for

variances in weight distribution and tyre grip under braking to maximise stability, stopping distance and vehicle control.

## VEHICLE-STABILITY CONTROL (VSC)

Keeps you in control and the vehicle pointing straight when on slippery surfaces by individually applying braking to each tyre where necessary.

## PARK DISTANCE CONTROL (PDC)

For effortless parking, each of the six sonar sensors located around the vehicle constantly scans for nearby stationary objects. When a nearby object is detected, a buzzer sounds inside the cabin as well as its proximity being displayed on the Multi-Information Display.

## TOYOTA SAFETY SENSE (TTS)

Xtra cab legend models now come standard with Toyota Safety Sense (TTS).

## ADVANCED SECURITY TECHNOLOGY

THAT INCLUDES WIRELESS DOOR LOCKING (KEVLESS SMART ENTRY ON LEGEND MODELS) AND AUTOMATICALLY LOCKING DOORS UPON PULL-AWAY AT A CERTAIN SPEED, AS WELL AS AN AUTOMATIC LIGHT CONTROL SYSTEM WITH A FOLLOW-ME-HOME FEATURE. THERE IS ALSO AN INTRUSION SENSOR, AN INDEPENDENTLY POWERED ALARM AND IMMOBILISER.

# TOYOTA ENVIRONMENTA CHALLENGE **2050**

At Toyota, creating technologically advanced vehicles isn't our only priority; we're committed to lowering our environmental impact throughout our entire production process. How? By setting ourselves six challenges that will see us reach a truly world-changing goal: a positive environmental impact by 2050.

ZERO CO2

## **CHALLENGE 1**

By owning a Toyota you would be contributing to the reduction of vehicle CO<sub>2</sub> emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

## **CHALLENGE 3**

You uphold the two main pillars of our strategy to achieve zero CO<sub>2</sub> emissions at our plants which are:

1. Developing and introducing low-CO<sub>2</sub> technologies with ongoing kaizen. 2. Adopting renewable energy sources and utilising hydrogen energy.

## **CHALLENGE 5**

## RECYCLING-BASED SOCIETY AND SYSTEMS

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continue working on the challenge of establishing a recycling-based society.

The message is clear - Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement, and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

THE TOYOTA HILUX RANGE HAS BEEN MANUFACTURED TO MINIMISE ITS

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact

design to manufacturing, to end-of-life recycling programmes, our planet always

our vehicles as environmentally friendly as possible. With this in mind, the entire

comes first. This is because the ultimate long-term goal for Toyota is to make all

as possible is made on the environment during each step of the process. From

## **CHALLENGE 2**

CARBON FOOTPRINT

## IFE CYCLE ZERO CO2 EMISSIONS CHALLENGE

Hilux range has been designed to have very low CO<sub>2</sub> emissions.

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO<sub>2</sub> emissions produced in travelling and manufacturing, but all CO2 emissions including the process of materials production, disposal and recycling of vehicles.

## **CHALLENGE 4**

CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environments is important. We have two measures to achieve this. comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

## CHALLENGE 6

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony we are promoting several activities to connect regions, the world and the future.

TOYOTA IS SERIOUS ABOUT COMBATING THE PROBLEMS ASSOCIATED WITH WASTE TYRES IN THE COUNTRY AND HAS THEREFORE TAKEN UP ITS PRODUCER RESPONSIBILITY AS DEFINED BY THE WASTE MANAGEMENT ACT OF 2008. WASTE TYRE REGISTRATION NUMBER: TPREG0031GAU

All Toyota vehicles can now be connected to the MyToyota App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features, so that you can enjoy:

**GPSLOCATOR** 

Always know your vehicle's GPS location

LOGBOOK Have access to a digital logbook

**DRIVER NOTIFICATIONS** Important reminders like licence renewal

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/owners/genuine-parts

## TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your Hilux without compromising its safety features or warranty. Warranties are about peace of mind, and the Genuine Unlimited Warranty is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Hilux by means of a full service history.

### TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. Toyota Quality Service and Value Service not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of Accredited Body and Paint Repairers, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, Toyota Roadside Assistance provides the peace of mind that competent support is only a phone call away.
