

ES 300h

ES |  LEXUS
EXPERIENCE AMAZING

ELEVATE YOUR EVERYDAY

Daringly provocative, the exciting new Lexus ES shatters preconceptions about executive sedans, making every journey that bit more amplified. Benefitting from a brave new approach to design, we've made it lower, wider and sleeker, ensuring that luxury is brought into your day-to-day with small yet meticulously crafted design improvements. Combining a stunning coupé-like silhouette with the roominess and refinement of a flagship sedan, the ES delivers elegance and comfort in one exceptional vehicle, and never disappoints from one day to the next.

THE LEXUS ES CONFIDENTLY INVITES YOU INTO A DAILY EXPERIENCE OF COMFORT AND LUXURY LIKE NEVER BEFORE, SUITING A VARIETY OF LIFESTYLES.

Model shown ES 300h SE.
South African vehicle specifications may differ.

EVERYDAY RIDE COMFORT

To elevate its renowned ride comfort and deliver agile dynamics befitting the new Lexus Driving Signature, the rear suspension braces of the new Lexus ES have switched from a single-sheet structure to a stronger dual-sheet structure. This makes the day-to-day driving that much more luxurious. The Lexus ES further makes its impression by continuing to balance the soothing reaction to bumps demanded by ES customers – improved torsional and lateral rigidity of the rear suspension enhances control and achieves more linear and neutral handling, faithful to a driver's intentions. Taking comfort to a new level of extraordinary that you deserve on every journey.

Immerse yourself in a one-of-a-kind comfort zone as soon as you enter the cabin of the new Lexus ES.

Performance is about getting that satisfying feeling every time you get to go on a drive. That's why we crafted the new Lexus ES with you in mind, so that every perfected minor improvement is designed to make every moment more rewarding. The Lexus ES range places all available performance in the driver's hands for an intimate experience. It is performance that can be felt. After all, it is the little enhancements that elevate your everyday.

The Lexus ES 250 EX uses a four-cylinder, 2.5-litre petrol engine to produce a maximum of 152kW of power at 6 600rpm and 243Nm of torque at 4 000–5 000rpm, and can achieve a top speed of 210km/h. An eight-speed direct shift automatic transmission with AI (Artificial Intelligence) maximises driver enjoyment and comfort, while still maintaining a combined fuel consumption of 6.6 litres per 100km.

The Lexus ES 300h EX and ES 300h SE models use only 4.6 litres of petrol per 100km, and produces absolutely no emissions in Electric Vehicle mode. The advanced petrol-electric hybrid system uses the breakthrough Self-Charging Hybrid system for maximum efficiency. Total system output from the 2.5-litre petrol engine and the nickel-hydrogen battery system is 160kW. An ECVT (Electronically Controlled Continuously Variable Transmission) drivetrain maximises both efficiency and performance.

In the words of our International Chief Engineer, Tetsuya Aoki: "Our goal was to deepen the high quality of the ES and to add new value. In addition to further improving quietness and ride comfort, we pursued linearity in vehicle movement, in response to steering wheel operation, that is faithful to the driver's intentions."

ELEVATED PERFORMANCE CONTROL

The petrol ES 250 EX, and hybrid ES 300h EX and ES 300h SE, set a standard of excellence with unparalleled levels of sophistication, elegance and performance.

Model shown ES 300h SE.

South African vehicle specifications may differ.

AN EVERYDAY STYLE ICON

EVOLUTION OF THE ES'S ELEGANT DESIGN FOR AN INCREASED MODERN FLAIR.

The latest generation Lexus ES is designed for a passionate and emotional connection, starting with a profile that is impossible to ignore.

The impressive improvements to the new Lexus ES include the adoption of geometric square bezels within the headlamp cluster for a more structured and formal appearance, while incorporating new BladeScan™ Adaptive High-Beam* Technology. Ensuring you make an entrance on the daily.

Lexus's new luxury medium sedan can be further distinguished by a redesigned trademark Lexus 'spindle' grille incorporating an L-shaped mesh pattern that emphasises lateral flow, as well as 17- and 18-inch wheels for the respective grades.

The Lexus *Takumi* craftsmen embody the quest for perfection by carefully refining design elements, for exquisite holistic balance. Boldness is balanced with elegance and innovative design characteristics are made possible by the new chassis platform that allows the new generation ES to be longer, wider and more spacious than ever before, but with a sleeker and lower silhouette. This is the type of luxury you want to be greeted by. The fastback roofline captures the glamour of a coupé and emphasises the low stance, while the interior roominess is all premium sedan.

With these improvements, you'll be convinced to take the long route, every time.

*Available on ES 300h SE models only

Model shown ES 300h SE.

EXPERIENCE A LEVEL OF COMFORT THAT NEVER DISAPPOINTS

The enhancements made to the new Lexus ES in terms of quietness and comfort are exquisite, just like you can expect every driving experience to be.

More comfortable and engaging driving characteristics are complemented by new cabin design features, ornamentation options and imaginative technology that add sophistication to the sumptuous seating and expansive space inside the Lexus ES, elevating the vehicle to a new level. The Japanese concept of *Omotenashi* is always kept in mind so that you and your passengers are welcomed into the cabin with a warm and familiar 'hello'.

A high-resolution 12.3-inch widescreen display has been brought forward by more than 100mm compared with the current model, debuting touch-display functionality to amplify usability options for the driver and front passenger. Based on the Lexus human-centred approach, the optimum distance and angle has been achieved, including tilting the screen by approximately five degrees to place even the outlying corners of the screen within easy reach, making every journey all the more pleasurable.

The door panels flow into the instrument console with all controls for the Lexus Navigation**, multi-information display and Mark Levinson®* audio system placed within your grasp, while all driving-related functions, as well as those for communication, are controlled from the heated* leather and wood-trimmed* steering wheel. For convenience, there's a wireless smartphone charger* in the console box. Define your own personal climate with automatic dual-zone climate control (three-zone in the ES 300h SE, with a humidity sensor). Not to mention the 454-litre luggage capacity for your everyday convenience.

Luxurious soft-touch dashboard and door materials, finely detailed stitching and impeccable fit and finish are further extended by the availability of new material ornamentation. Befitting uncompromising Lexus craftsmanship standards, hairline ornamentation includes hairlines etched in one at a time using a laser process to create a more delicate and modern ambience. The new Lexus ES delivers only the best and we're confident it'll impress you every time you and your passengers take a seat.

* Available on ES 300h SE models only.

** Available on ES 300h EX and ES 300h SE models only.

INTERIOR

DRIVE A HYBRID EVERY DAY FOR A BETTER TOMORROW

THE ADVANCED PETROL-ELECTRIC HYBRID SYSTEM USES THE BREAKTHROUGH SELF-CHARGING HYBRID SYSTEM FOR MAXIMUM EFFICIENCY TO ELEVATE YOUR DAY.

At Lexus, we are the bold innovators of hybrid technology, and the ES hybrid is proof of that mastery, producing nearly 70% fewer smog-forming emissions than comparable petrol engines. The new generation hybrid system provides outstanding efficiency and an exhilarating drive, every time the driver is behind the wheel.

Sustainability is proudly a core part of the Lexus brand, which is why the Lexus ES range consists of two hybrid models with this leading technology.

In South Africa, the highly successful seventh-generation ES is currently available in two hybrid variants: the ES 300h EX and an ES 300h SE.

The currently available ES 300h utilises the renowned Lexus hybrid-electric system combining a 2.5-litre normally aspirated four-cylinder petrol engine with an electric motor - producing a total system output of 160kW and delivering combined-cycle fuel consumption from just 4.6 litres per 100 kilometres. Now isn't this the type of technology you want to experience every day?

Model shown ES 300h EX.

South African vehicle specifications may differ.

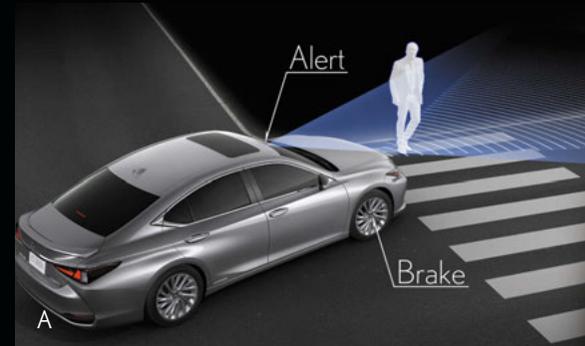

SAFETY, AMPLIFIED

SAFETY

At Lexus safety is of paramount importance, which is why the new Lexus ES features the most advanced passive and active safety and driver support systems available. Fundamental safety is taken care of by the anti-theft system, smart entry and start system, auto door lock and child locks, as well as all-round seat belt warning.

A COLLISION PREVENTION

For the improved Lexus Safety System, the performance of the single-lens camera and millimetre-wave radar have been improved to expand the response range of the Pre-Crash System (PCS)*. The Lane Trace Assist* with Lane Keep Assist and Steering Vibration also improve the safety of you and others on every journey.

B SAFE CRUISING

Adaptive*, All Speed*, Cruise Control uses camera technology to maintain a preset speed and following distance from the vehicle ahead. If you get closer than the preset distance, the throttle is automatically reduced and the brakes may be applied. As soon as the road ahead clears, your Lexus returns to its preset speed.

C ENHANCED VISIBILITY

Intelligent LED Adaptive High-Beam* headlamps provide greater visibility for you as well as other drivers. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it senses the headlamps or tail lamps of vehicles ahead.

D TOTAL CONTROL

An ABS system with Electronic Brake Force Distribution (EBD), combined with Vehicle Stability Control (VSC), Hill Assist Control (HAC), Active Cornering Assist (ACA) and Traction Control (TRC) gives you the utmost confidence behind the wheel. The Blind Spot Monitor (BSM) with Rear Cross Traffic Alert and Park Distance Control (PDC) with Corner Sensors and an Intelligent Clearance Sonar detect all-round obstructions in adjacent lanes or when manoeuvring into parking bays.

E SAFETY FOR EVERYONE

For the unfortunate event of an accident, every Lexus ES is fitted with a comprehensive suite of airbags: driver and front passenger front and knee airbags, side and curtain airbags, rear outboard seat-mounted side airbags, as well as two ISOFIX rear seat anchors.

*Available on ES 300h SE only.

Images shown for illustrative purposes.

TECHNOLOGY THAT INSPIRES

IMAGINATIVE TECHNOLOGY

This is the most technologically advanced Lexus ES ever, with traditional measures of comfort merged with cutting-edge technology for all-encompassing driving pleasure.

A HEAD-UP DISPLAY (HUD)*

The largest-in-class high-resolution colour display projects critical information in the driver's field of view, allowing for maximum on-road concentration.

B AUDIO SYSTEM

The ES features a 17-speaker* Mark Levinson® audio system that can be linked to smart devices by either Apple CarPlay or Android Auto. All of these display the screen of the smartphone on the vehicle's infotainment screen as well as linking the phone's audio output to the vehicle's speakers.

C GET CONNECTED WITH MYLEXUS APP

All Lexus vehicles can now be connected to the MyLexus App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features, like in-car Wi-Fi, roadside assistance and more. See back of brochure for more information.

D PANORAMIC VIEW MONITOR (PVM)*

Keeping you in tune with your surroundings, the Panoramic View Monitor makes use of a complement of cameras to view a composite image, even keeping you safer around corners.

E LEXUS NAVIGATION SYSTEM**

Providing convenient access to multimedia, climate controls and navigation, which integrates with the cloud to give you up-to-date navigational information.

F AIR CONDITIONER—AUTO 3-ZONE* WITH HUMIDITY SENSOR**

The Auto 3-Zone air conditioner monitors the temperature of three separate climate zones and adjusts the ventilation system and the temperature of the front and rear seats individually, so that each zone achieves its preset level of comfort for each passenger as quickly as possible and at the touch of a button.

LEXUS MAINTENANCE

INTRODUCTION

At Lexus, we take pride in the advanced engineering and craftsmanship of the vehicles we build. For that reason, our Warranty and Distance Plans are designed to provide Lexus owners with seamless vehicle maintenance and complete peace of mind. The Lexus Warranty and Distance Plans both enjoy full support by Lexus SA and offer customers access to specialised servicing, maintenance and repair at any Lexus dealer in South Africa, Namibia and Botswana.

WARRANTY AND DISTANCE PLANS

To complement its comprehensive Warranty, the Lexus ES features a Distance Plan Complete that provides for service and maintenance costs. The option to extend the period of cover is available for both the Warranty and Distance Plan Complete. These options can be discussed with your Lexus dealer. To familiarise yourself with the cover provided by Warranty and Distance Plan on the Lexus ES, please consider the information below.

WARRANTY

- Duration: 7 Years or 105 000km from original date of sale.
- Cover: Repair or replacement of components that fail or malfunction as a result of manufacturing or material defect.

DISTANCE PLAN

For the Lexus ES, all Distance Plans have been improved. Lexus ES models are covered by a Distance Plan Complete full Maintenance Plan for 7 Years/105 000km as well as a comprehensive manufacturer's Warranty. Distance Plan also includes a comprehensive Hybrid Battery Warranty of 8 Year/195 000km.

Consult with your Lexus dealer for more information on the terms and conditions of the Warranty and Distance Plan Complete offered on the Lexus ES.

LEXUS LIFE

Our online magazine, Lexus Life celebrates innovative design, sustainable technologies and premium experiences around the globe.
