

RC F |  LEXUS
EXPERIENCE AMAZING

ENGINEERED FOR
ACCELERATION

"F" is the culmination of Lexus' passion and knowledge cultivated from years of manufacturing race-bred vehicles. "F" is our promise of unparalleled performance. It transcends the pretence of power by integrating a deep physical and emotional response that is tried and tested at the Fuji Speedway which is the Lexus F vehicle development centre. The Lexus Fuji Speedway has a heritage of producing track-born masterpieces.

Introducing the Lexus RC F and the RC F Track Edition, two coupés that epitomise high-speed performance. The RC F models are engineered to provoke a potent physical response within drivers who insist on high-performance and unreserved refinement. Designed to liken supercars, these models aren't just sporty, they push speed and style to new extremes. Featuring the most powerful V8 engine ever developed by Lexus, the RC F and RC F Track Edition are meticulously crafted for pure exhilaration.

A RANGE OF HIGH-SPEED POSSIBILITIES

RC F

The RC F pushes performance to new extremes. With stiffened suspension, increased stability and improved aerodynamics, it captures the spirit of a true racing coupé. Featuring motorsport instruments and bold styling, the Lexus RC F is a track-inspired masterpiece designed to keep hearts racing and heads turning.

RC F TRACK EDITION

From 0 to 100km/h in 4.3 seconds, the limited production RC F Track Edition is the most track-ready RC F ever. This exclusive model boasts the best-in-class power-to-weight ratio for increased speed, as well as Launch Control which ensures lightning-fast acceleration straight off the line. The RC F Track Edition is amazing in motion, displaying exceptional strength and agility on the street and on the track.

Model Shown RC F.
South African vehicle specifications may differ.

A PIONEER IN PERFORMANCE

The high-performance RC F line is built to transcend the standard. The result is 351kW of power at 7 100 rpm and 530Nm of torque at 4 800–5 600 rpm – incredible speed achieved by minimising the car's weight while maximising its aerodynamics. The RC F silhouette is sharper and more refined due to its dropped suspension which improves the steering feel of the vehicle. Featuring a lightweight Automatic 8-speed transmission which increases fuel efficiency and economy, these aggressive cars offer a dynamic driving experience unlike any other.

The 5.0-litre V8 engine is an unprecedented feat of precision engineering exhibiting 472 horsepower and a maximum speed of 270km/h. Every detail of the RC F line is masterfully crafted to enhance performance. With improved torque, increased responsiveness and an updated differential gear ratio, the RC F and RC F Track Edition offer exhilaration on demand.

Model Shown RC F Track Edition.

South African vehicle specifications may differ.

BUILT FOR THE BRAVE

The RC F and the RC F Track Edition have a low, muscular stance and aggressive race-lines revealing their track-inspired DNA. They both have a three-dimensional spindle grille which is an unapologetic expression of power with a lower centre of gravity, amplifying the aerodynamics of the vehicle and making it impossible to ignore. Fitted with carbon fibre* moulding technology developed for the Lexus LFA supercar, the RC F is lighter and more ferocious than ever before.

Model shown RC F Track Edition.

*Available on RC F Track Edition only. South African vehicle specifications may differ.

A **MICHELIN® PILOT® SPORT 4 S TYRES**

19-inch Michelin® Pilot® Sport 4 S tyres increase traction while maximising grip. These forged alloy wheels are lightweight, increasing the overall speed and agility of your coupé, resulting in a more thrilling driving experience.

B **HIGH-PERFORMANCE BREMBO® BRAKES**

Unlock serious stopping power and an increased level of control with our high-performance Brembo® braking system. The 19-inch front brakes offer responsive resistance at top speed.

C **SPEED-ACTIVATED REAR WING* AND CARBON FIBRE REAR WING****

To optimise the RC F's balance, we've engineered a speed-activated rear wing that helps reduce lift, enhance handling and increase control. The RC F Track Edition features a RC F GT3 inspired carbon fibre rear wing for even greater aerodynamics, offering complete confidence as you rev into new realms of exhilaration.

D **POWER MOONROOF***

The expansive power moonroof lets the desirable amount of moonlight and sunlight in, adding natural ambiance while you manoeuvre through your environment. The unique outer-sliding design creates a larger opening allowing additional headroom.

E **CARBON FIBRE ROOF****

The RC F Track Edition sports a black carbon fibre roof that lowers the cars centre of gravity. Through reduced weight and increased agility, this track-ready coupé exhibits menacing power with exceptional poise.

*Exclusive to the RC F.

**Exclusive to the RC F Track Edition.

FORGED FOR THE FEARLESS

The driver-focused cockpit strikes the perfect balance between luxury and power. From the chrome detailing on the control switches which heightens the interior's elegance to the padded centre console which offers increased comfort during hard cornering, the RC F range features race-bred styling that provides an incredible sense of support and synchronicity at any speed. Exhilaration has never felt this amazing.

Model Shown RC F.

South African vehicle specifications may differ.

A **HIGH-BACK SPORT SEATS**

These exclusive low-set seats with “F” embossed headrests envelop the driver from head to hip. They are uniquely designed to disperse body pressure and increase support even when taking on the sharpest turns.

B **SPORT STEERING WHEEL**

Our uniquely moulded sport steering wheel offers ultimate power within your palms, giving you direct access to a multitude of functions including cruise control and mounted paddle shifters for gear-changing convenience.

C **CIRCUIT RED ALCANTARA INTERIOR TRIM***

The distinctive Alcantara interior trim featured in the RC F Track Edition is a luxurious, textured suede that provides increased grip. The Carbon Fibre ornamentation is a beautiful addition to the interior, enhancing the lateral traction within the car.

D **ALUMINIUM PEDALS**

Lap after exhilarating lap, the aluminium racing pedals offer unprecedented control. Additional rubber grips have been built into the pedals in a bold quadrilateral design for increased grip.

*Exclusive to the RC F Track Edition.

A detailed photograph of the front interior of a Lexus RC F. The image shows the driver's side with the steering wheel, dashboard, and front seats. Three airbags are deployed: a large orange one on the left, a white one in the center behind the steering wheel, and a white one on the right side of the front seat. The car's interior is dark with some light-colored stitching on the seats.

SAFETY

PRIME PERFORMANCE
**OPTIMUM
SAFETY**

The RC F and RC F Track Edition are models that place safety and high-performance side-by-side: two seemingly opposing ideas that Lexus integrates to create seamless synergy which is the core of our “Yet” philosophy. We didn’t just engineer a car that travels 270km/h, we created an intelligent machine that intuitively protects the driver while breaking the boundaries of performance.

Model Shown RC F.
South African vehicle specifications may differ.

A **LEXUS SAFETY SYSTEM+**

Lexus Safety System+ is an integrated suite of active safety equipment which acts as a shield against accidents. From intuitive high beams with amplified illumination for increased focus to advanced lane assistance technology, our safety system brings Lexus drivers closer to an accident-free existence.

B **VEHICLE DYNAMICS INTEGRATED MANAGEMENT (VDIM)**

VDIM prevents skids by predicting them before they occur through a combination of individual-wheel braking, torque modulation and steering torque assistance.

C **PRE-CRASH SYSTEM**

The pre-crash system detects imminent obstacles which reduces the likelihood and severity of collisions. Pedestrian Detection automatically reacts before you can by utilising Lexus Brake Assist. The emergency brake signal acts to prevent rear-end collisions.

D **BLIND SPOT MONITOR WITH REAR CROSS TRAFFIC ALERT**

Rear Cross Traffic Alert is a feature that combines with Lexus radar apparatus to detect the presence of vehicles in adjacent lanes that are not visible in the side mirrors. A warning alert is emitted if another vehicle enters the driver's blind spot.

E **ADAPTIVE CRUISE CONTROL**

Through the use of a camera and a millimetre wave radar sensor, the system works to maintain an appropriate distance between your Lexus and the car in front of you, halting when needed and moving forward when it is safe to do so.

F **LANE DEPARTURE ALERT**

Lane Departure Alert with Lane Keep Assist and Steering Control utilises a camera to monitor your position within your lane, warning you if you drift beyond the lane's limits. Additionally, Automatic High Beam switches to low beam when the lights of another vehicle are detected.

TRACK-READY TECHNOLOGY

Lexus gives a new meaning to connectivity by integrating technology that adds to the driver's in-vehicle convenience. From the steering-wheel-mounted controls that place ultimate power at your fingertips to the innovative cockpit features, the RC F and RC F Track Edition are fast-paced, forward-thinking vehicles that will keep you ahead of the curve.

A MULTI-INFORMATION DISPLAY

The track-inspired full-colour LCD multi-information display within the gauge cluster ensures optimum performance through increased readability. Drivers can quickly determine Variable Drive Modes, gear position and odometer information at a glance. Additional multimedia integration enables an easy view of incoming calls and more.

B LAUNCH CONTROL

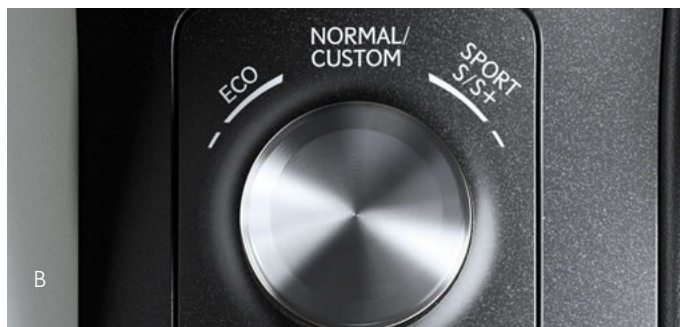

This track-ready technology allows Lexus drivers to hold the optimal rpm for lightning-fast acceleration. Throttle control helps eliminate wheel-spins and maximises grip, propelling the vehicle off the line almost instantaneously.

C MARK LEVINSON® SURROUND SOUND AUDIO SYSTEM

An innovative system that consists of 17 speakers with 3D audio technology that envelops each passenger in the highest sound quality, which restores compressed audio and offers clear and dynamic sound from every source.

D DYNAMIC VOICE COMMAND

Our Dynamic Voice Command enables a greater degree of accuracy as it recognises a million more phrases than conventional voice-recognition systems, offering seamless address entries and expanded Points of Interest searches. By using everyday speech, you can make phone calls, adjust the climate and utilise navigation features.

LEXUS MAINTENANCE

INTRODUCTION

At Lexus, we take pride in the advanced engineering and craftsmanship of the vehicles we build. For that reason, our Warranty and Distance Plans are designed to provide Lexus owners with seamless vehicle maintenance and complete peace of mind. The Lexus Warranty and Distance Plans both enjoy full support by Lexus SA and offer customers access to specialised servicing, maintenance and repair at any Lexus dealer in South Africa, Namibia and Botswana.

WARRANTY AND DISTANCE PLANS

To complement its comprehensive Warranty, the RC F and RC F Track Edition feature a Distance Plan Complete that provides for service and maintenance costs. The option to extend the period of cover is available for both the Warranty and Distance Plan Complete. These options can be discussed with your Lexus dealer. To familiarise yourself with the cover provided by Warranty and Distance Plan on the Lexus RC F and RC F Track Edition, please consider the information below.

WARRANTY

- Duration: 7 Years or 105 000km from original date of sale.
- Cover: Repair or replacement of components that fail or malfunction as a result of manufacturing or material defect.

DISTANCE PLAN

The Lexus RC F and RC F Track Edition are both covered by a Distance Plan Complete full maintenance plan for 7 Years/105 000km.

LEXUS LIFE
