

THE NEW

HILUX

GR SPORT

LEGENDARY TOUGHNESS
MEETS ULTIMATE PERFORMANCE

BORN FROM DAKAR

Drawing inspiration from its all-conquering Dakar Sportscar namesake, the Hilux GR-Sport keeps its winning streak. Rally DNA runs deep in this tough new wide-body Hilux.

Forged by Toyota Gazoo Racing's experience in motorsport, form and function come together in a Hilux like no other. Sporting a face reminiscent of the famed Toyota Tundra, it comes with a whole host of bespoke performance and under-the-skin upgrades, including an all-new Wide Tread Suspension, to create the ultimate double cab bakkie worthy of its legendary badge.

The Hilux 2.8 GD-6 4x4 GR-Sport is singularly focused on confident off-roading and polished on-road dynamics.

MODEL SHOWN: 2.8 GD-6 4x4 GR-Sport

PERFORMANCE BOOST

Packing some serious grunt, the GR-Sport is the recipient of a generous 10% performance boost over its 2.8ℓ Legend and Raider stablemates, making it SA's most power-conscious diesel Hilux. Dispensing 165 kW of power at 3 000 r/min, while dishing up a substantial 550 Nm of torque between 1600 and 2800 r/min, this performance is harnessed by a slick six-speed auto transmission and – for maximum engagement – it's equipped with paddle shifters.

MAKE TRACKS

Taking the torch from its acclaimed predecessor, the GR-Sport blazes an all-new trail courtesy of its Wide Tread Suspension for improved cross-country capabilities. Riding 50 mm taller and 120 mm wider than core Hilux models thanks to front and rear track revisions, this Hilux is clearly in a league of its own, particularly when you venture off the beaten track. Reinforcing its bundu-bashing credentials, the GR-Sport gains new ventilated rear disc brakes to provide effective heat dissipation for even more precise handling, ensuring a flawless 'finish' every time.

MODEL SHOWN: 2.8 GD-6 4x4 GR-Sport

RACY LOOKS

The GR-Sport's aggressively chiseled "Tundra-inspired" face features a unique slimline headlight design and a bolt upright grille with bold Toyota lettering, leaving you in no doubt that this is one extra special Hilux. Other distinctive characteristics include a unique front bumper which delivers an improved approach angle – this is paired with a bash plate, new fog lamp bezels and custom GR decals for an even sportier look. Accentuating its broad stance, the GR-Sport comes standard with Wide Tread overfenders and gloss-black, optimally weighted 17" alloys, shod with rugged 265/65 R17 BF Goodrich All-Terrain Tyres. Spotlighting the rear, there's a fully rubberised loading bay as well as a rugged GR-Sport rollbar and a complementary tonneau cover.

GEAR UP

The Hilux GR-Sport is kitted with all the top-grade features to get you and your gear to the places you'd rather be – and get there in style. Toyota Gazoo Racing makes its mark with a black, red and silver themed cabin. GR insignia adorns the headrests, rally-style “Smooth” steering wheel, auto shift knob, smart key and push-start switch. Black and red accents on the combination meter help make the important things stand out. And when the going gets tough you'll still be comfortable thanks to the Alcantara leather sports seats. Plus, there's a JBL Premium nine-speaker audio (Apple CarPlay and Android Auto enabled), an electrochromatic rearview mirror and Adaptive Cruise Control – all of which are guaranteed to make short work of any road trip. And, making light work of heavy loading, your Hilux GR-Sport is equipped with Tailgate Assist and a central locking tailgate.

PLAY IT SAFE

In line with its flagship status, the Hilux GR-Sport shares the advanced Toyota Safety Sense system with its Legend stablemate. Included in this package is the brake synchronised Pre-Crash system with pedestrian and daytime cyclist detection. Using an integrated camera and radar, the Pre-Crash system is designed to assist the driver where there is a likelihood of frontal collision with cars and pedestrians during day or night, or cyclists during the daytime. Sensors will trigger the automatic intervention of safety systems such as emergency braking and safety belt bracing to avoid or mitigate impact without driver input.

Adaptive Cruise Control (full speed) is designed to help keep a constant distance between vehicles. It uses a millimeter wave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance. The third tool in the TSS arsenal is Lane Departure Alert. This prevents you drifting from your lane by monitoring road markings. A visible and audible alert will be produced should it detect any deviation from the lane.

The Panoramic View Monitor facilitates tight manoeuvres or safer passage during extreme, low-speed traversing of treacherous terrain by providing 360-degree top-down hi-res images of the vehicle in its immediate surroundings in the infotainment screen.

TOYOTA ENVIRONMENTAL CHALLENGE 2050

At Toyota, creating technologically advanced vehicles isn't our only priority; we're committed to lowering our environmental impact throughout our entire production process. How? By setting ourselves six challenges that will see us reach a truly world-changing goal: a positive environmental impact by 2050.

ZERO CO₂

CHALLENGE 1

NEW VEHICLE ZERO CO₂ EMISSIONS CHALLENGE

By owning a Toyota you would be contributing to the reduction of vehicle CO₂ emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

ZERO CO₂

CHALLENGE 3

PLANT ZERO CO₂ EMISSIONS CHALLENGE

You uphold the two main pillars of our strategy to achieve zero CO₂ emissions at our plants which are:

1. Developing and introducing low-CO₂ technologies with ongoing kaizen.
2. Adopting renewable energy sources and utilising hydrogen energy.

CHALLENGE 5

CHALLENGE OF ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continue working on the challenge of establishing a recycling-based society.

THE TOYOTA HILUX RANGE HAS BEEN MANUFACTURED TO MINIMISE ITS CARBON FOOTPRINT.

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact as possible is made on the environment during each step of the process. From design to manufacturing, to end-of-life recycling programmes, our planet always comes first. This is because the ultimate long-term goal for Toyota is to make all our vehicles as environmentally friendly as possible. With this in mind, the entire Hilux range has been designed to have very low CO₂ emissions.

ZERO CO₂

CHALLENGE 2

LIFE CYCLE ZERO CO₂ EMISSIONS CHALLENGE

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO₂ emissions produced in travelling and manufacturing, but all CO₂ emissions including the process of materials production, disposal and recycling of vehicles.

CHALLENGE 4

CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environments is important. We have two measures to achieve this, comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

CHALLENGE 6

CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony, we are promoting several activities to connect regions, the world and the future.

The message is clear – Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

GET CONNECTED WITH
My TOYOTA

IN-CAR WI-FI, ROADSIDE ASSISTANCE AND MUCH MORE

All Toyota vehicles can now be connected to the MyToyota App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features, so that you can enjoy:

IN-CAR WI-FI*

Connect to Wi-Fi

GPS LOCATOR

Always know your vehicle's GPS location

LOGBOOK

Have access to a digital logbook

DRIVER NOTIFICATIONS

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/owners/genuine-parts

TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration – you can enhance the appeal and functionality of your Hilux without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Hilux by means of a full service history.

TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service and Value Service** not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.
