OWN THE TRACK

MODEL SHOWN: GR Corolla 1.6T Circuit

1994 Carl Hill Hard State Bar Bar Carl Son

The long-awaited GR Corolla is a hatch made in heaven, finally here to give you one hell of a ride.

Equipped with GR-tuned suspension and a state-of-the-art GR-FOUR all-wheel drive system, Gazoo Racing's latest speed fiend puts all 221 kW of its power into your hands.

Every ride is a joy ride with sport mode at the flick of a switch, a mechanical handbrake and six-speed manual transmission.

And just like its track-bred brethren – GR Supra, GR 86 and GR Yaris – the GR Corolla perfectly balances practicality with raceability while delivering the pinnacle of driving pleasure.

MODEL LINE-UP: GR Corolla Hatch 1.6T Core GR Corolla Hatch 1.6T Circuit

RULE THE DA D

Track-tested and perfected at motorsport's toughest trials, the hottest hatch on the market packs a punch with the world's most powerful production three-cylinder engine. With a total displacement of only 1.6ℓ, the GR Corolla's turbocharged system delivers a whopping 221 kW of power @ 6500 r/min and 370 Nm of torque @ 3000-5550 r/min.

Paired to a short-throw 6-speed Intelligent Manual Transmission with selectable rev matching for perfectly executed heel-and-toe downshifts, the GR Corolla powers to a top speed of 230 km/h. Together with an average fuel consumption measured at 8,4 ℓ /100 km, this hot hatchback is just as fuel-efficient as it is fast.

The GR FOUR permanent all-wheel drive system generates limpet-like grip for complete control across all road surfaces.

The front and rear torque split defaults to 60/40 in normal mode and can be adjusted to a more playful 30/70 as well as the optimal setting for track driving at 50/50.

For even more extreme tractive ability, the Circuit edition is equipped with torque-sensing front and rear limited slip differentials that optimise grip and power distribution.

Locking you into the GR Corolla cornering limits is a custom light-weight MacPherson strut front suspension setup, paired with a rear trailing double wishbone configuration.

ALL THE POWER. ALL THE CONTROL. ALL THE THRILLS.

MODEL SHOWN: GR Corolla 1.6T Circuit

The GR Corolla is precision built by highly-trained craftsmen in the Gazoo Racing Motomachi factory in Japan.

STYLED FOR STYLED FOR

This mean machine boasts a wider, wilder body with flared fenders, a fierce spoiler and 18" lightweight alloy wheels fitted with 235/40/18 tyres.

In true motorsport fashion, function dictates form with:

- a uniquely patterned carbon-fibre roof* that adds lightness, rigidity and a lower centre of gravity for improved lateral dynamism.
- newly designed bi-LED headlamps surrounding the GR black high-gloss front grille* that automatically

adjust for brightness when oncoming traffic is detected (complemented by fog lamps that are integrated into the LED brake lamps at the rear).

- a power-enhancing, free-flowing triple-pipe exhaust that emphasises its sporty rear end and ensures the GR Corolla sounds just as good as it looks.
- front and rear bumper ducts and GR-branded side rocker panels that reduce speed-sapping drag.

* Available on selected models

An extensive array of cutting-edge active safety and accident mitigating interventions mean that you can push your limits with total peace of mind.

Driver, front passenger, side, curtain and driver-knee airbags are standard.

As is the fitment of Anti-Lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Vehicle Stability Control (VSC) and Hill-Assist Control (HAC).

Every model comes equipped with Toyota's latest Safety Sense Package that includes:

Pre-crash System that, warns the driver of oncoming vehicles or pedestrians and automatically intervenes if the driver doesn't brake in time.

Lane Trace Assist that detects lane deviation and automatically corrects steering while alerting the driver with a buzzer.

Park Distance Control (PDC) in both the front and rear guarantees accident-free parking.

Emergency Locking Retractor (ELR) on the seatbelts that allows for easy extension until a sudden stop or impact at which point it will tighten to protect the passenger.

ISOFIX mounting brackets for securing baby seats to the rear seat, while the rear doors are fitted with child locks.

Remote central locking and an anti-theft system that activates automatically once the vehicle is wirelessly locked by the key fob.

At long last, the hottest hatch on the market is available in South Africa.

GR YOU READY FOR THE RIDE OF YOUR LIFE?

HIGH PERFORMANCE PROTECTION

TOYOTA CHALLENGE 2050

At Toyota, creating technologically advanced vehicles isn't our only priority; we're committed to lowering our environmental impact throughout our entire production process. How? By setting ourselves six challenges that will see us reach a truly world-changing goal: a positive environmental impact by 2050.

CHALLENGE 1

By owning a Toyota you would be contributing to the reduction of vehicle CO2 emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

CHALLENGE 3

You uphold the two main pillars of our strategy to achieve zero CO₂ emissions at our plants which are:

1. Developing and introducing low-CO₂ technologies with ongoing kaizen. 2. Adopting renewable energy sources and utilising hydrogen energy.

CHALLENGE 5

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continue working on the challenge of establishing a recycling-based society.

The message is clear – Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

THE TOYOTA GR COROLLA RANGE HAS BEEN MANUFACTURED TO MINIMISE ITS CARBON FOOTPRINT.

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact as possible is made on the environment during each step of the process. From design to manufacturing, to end-of-life recycling programmes, our planet always comes first. This is because the ultimate long-term goal for Toyota is to make all our vehicles as environmentally friendly as possible. With this in mind, the entire GR Corolla range has been designed to have very low CO₂ emissions.

CHALLENGE 2

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO2 emissions produced in travelling and manufacturing, but all CO2 emissions including the process of materials production, disposal and recycling of vehicles.

CHALLENGE 4

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environments is important. We have two measures to achieve this, comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

CHALLENGE 6

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony we are promoting several activities to connect regions, the world and the future.

TOYOTA IS SERIOUS ABOUT COMBATING THE PROBLEMS ASSOCIATED WITH WASTE TYRES IN THE COUNTRY AND HAS THEREFORE TAKEN UP ITS PRODUCER RESPONSIBILITY AS DEFINED BY THE WASTE MANAGEMENT ACT OF 2008, WASTE TYRE REGISTRATION NUMBER: TPREG0031GAU

All Toyota vehicles can now be connected to the MyToyota App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features, so that you can enjoy:

Connect to Wi-Fi

Always know your vehicle's GPS location

Have access to a digital logbook

Important reminders like licence renewal

Check your battery health

Manage your services

Get real-time roadside assistance

Receive a driver rating

Monitor your fleet

Renew from the App

AND MORE - The above features are not all; there are loads of other features available to further enhance driver and guest safety, convenience and comfort; and plenty more to come to make your drive experience better and better with every kilometre.

Toyota vehicles are known for their Quality, Durability and Reliability Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/genuine

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your GR Corolla without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited** Warranty is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The Genuine Extended Service Plan also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your GR Corolla by means of a full service history.

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. Toyota Quality Service and Value Service not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited** Body and Paint Repairers, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

P ΤΟΥΟΤΑ FINANCIAL SERVICES

TOYOTA FINANCIAL SERVICES

There is no 'one-size-fits-all' when it comes to vehicle finance and insurance, there is only you. With fast, flexible and convenient services we will structure the perfect Toyota GR Corolla deal for you.
